Needed an office space for a day on my way back from a road trip and this place was perfect. The office has all the facilities you may need including a huge monitor, it's close to the central market and there's a lively community there. You can interact with people or work quietly.

I cannot recommend Nook highly enough! From the moment I walked in, I was blown away by its stunning design. The space is thoughtfully curated with modern, stylish decor that instantly makes you feel at ease and inspired. Every corner is impeccably designed, creating an environment that is both professional and welcoming.
